About Us

Established in 1979, Mine Chem India has a strong foothold in the industry and is known as a prominent trader and supplier of industrial chemicals. We take pride in facilitating a wide range of products namely Butyl Acrylate Monomer, Styrene Monomer, Vinyl Acetate Monomer, Polyvinyl Alcohol B 24 Denka Poval, Acrylic Acid, and more. We procure our products from leading manufacturers who formulate them by using fine-quality ingredients and base chemicals. Apart from this, integrating high-quality standards, transparent business dealings, ethical policies, a customer-centric approach, a wide distribution network and on-time delivery schedules have made us the most reputed company in the industry.

We have a capacious warehouse that is equipped with all the required facilities. In it, we store our range in a systematic manner as per their categories and labels. Moreover, our efficient transportation facilities assist us in supplying our products to our esteemed customers within the shortest possible time frame. Before the final dispatch, our quality experts check the products to ensure that only a reliable range reaches the customer destination. Under the able leadership of our managers and management staff, we have been able to carve a strong foothold in the market for over four decades.
